BHEL makes India's highest-rated auto transformer

PRESSTrust OF INDIA
New Delhi, November 27

STATE-OWNED ENGINEERING firm BHEL on Friday said it has set a new record by successfully manufacturing and testing India's highest-rated auto transformer.

"BHEL has successfully manufactured and tested (short circuit) India's highest rating auto transformer at the National High Power Test Lab-

oratory (NHPTL) at Bina in Madhya Pradesh," it said in a statement.

This is a new benchmark in the global transformer industry, according to the statement. Short circuit test is the most stringent, special type test for power transformers, which is conducted to prove the adequacy for power transformers to withstand abnormal conditions of short circuit to ensure reliability during

High rating transformers play a crucial role in bulk power transmission to load centres and bigger cities

their operations in the field. Incidentally, this is BHEL's 21 400 KV class transformer, which has successfully passed the short circuit test, indicating the company's prowess in

the sector. The 500 MVA 400/220/33 KV auto transformer has been designed and manufactured at BHEL's Bhopal plant for UP Power Transmission Corporation.

These high rating transformers play a crucial role in bulk power transmission to load centres and bigger cities.

BHEL is the largest manufacturer of power transformers in India and a pioneer in the

indigenous development of higher rating and specialised transformers, with voltage levels going up to 1,200 KV class.

The engineering firm's transformer plant in Bhopal has a world-class, state-of-the-art facility, which is at par with its global peers and is fully equipped to meet the expectations of utilities in India as well as abroad in the entire range of power transformers and shunt reactors.

Vistara's Mumbai-London flight thrice a week from Jan 16

VISTARA ON FRIDAY said it will operate flights on the Mumbai-London route thrice a week from January 16 onward using its new Boeing 787-9 Dreamliner aircraft. Currently, the full-service carrier is operating flights on the Delhi-London route thrice a week. —PTI

'E-commerce sees \$8.3-bn sales in festive season'

PRESSTrust OF INDIA
New Delhi, November 27

INDIA'S E-COMMERCE festive sale season from October 15-November 15 this year delivered \$8.3 billion (about ₹58,000 crore) worth of gross sales for brands and sellers, up 65% from \$5 billion (₹35,000 crore) last year, research firm RedSeer said on Friday.

This was also higher than the pre-festive forecast of \$7 billion, RedSeer said in its report titled 'The Festival of Firsts'.

About \$3.2 billion (₹22,000 crore) worth of gross sales was registered in September this year, which zoomed to \$8.3 billion in the festive period, the report said.

Of the \$8.3 billion, \$4.2 billion (₹29,000 crore) was logged in the first event, \$1.2 billion (₹8,700 crore) in the second event and \$1.4 billion (₹9,700 crore) and \$1.5 billion (₹10,300 crore) in other events by e-commerce companies, including Amazon and Walmart-owned Flipkart.

Festive season sees players holding multiple sale events, timed around Dussehra and Diwali.

The report said Flipkart group (including Myntra) and Amazon accounted for more than 88% of the entire gross merchandise value (GMV) for the festive month.

Between the two players, Flipkart accounted for a larger share (66%), it added.

"The overall growth story has been very bullish this festive season. We had forecasted \$7 billion of sales but the actual figures surpassed our expectations fairly comfortably, showing how comfortable consumers have become with shopping online even in this pandemic hit year," RedSeer

director Mrigank Gutgutia said.

Headed that one clear lesson from this festive season is that e-commerce has become more mainstream than ever.

"And it has proven that with the right assortment at the right prices which is delivered quickly in the safety of customer's homes, the value proposition of e-commerce is very powerful," he said.

Gutgutia emphasised that it is imperative for brands and sellers to shift their focus to online quickly and enable a seamless online experience for the customer in order to thrive in a post Covid-19 world.

The report noted that 40 million shoppers came from tier II and beyond cities.

"This festive season was one dictated by affordability and ease of access to a wide assortment of products," it added.

Also, mobile phones continued to dominate the percentage share (at 46%) of all products across the different platforms, owing to a rise in aspiration among new customers.

The report pointed out that with affordability schemes increasing the share of users from tier II and beyond cities, GMV per customer dropped to ₹6,600 this festive season from ₹7,450 in the year-ago period.

RedSeer said the contribution of the fashion segment decreased from last year (from 16% last year to 13% this year), owing to factors like Covid-19-related restrictions ongoing out and gathering for weddings and other festive celebrations.

Interestingly, categories like home and home furnishings has "done better than any time before" due to high demand for upgrading work-from-home/study-from-home environments.

Between the two players, Flipkart accounted for a larger share (66%), it added.

"The overall growth story has been very bullish this festive season. We had forecasted \$7 billion of sales but the actual figures surpassed our expectations fairly comfortably, showing how comfortable consumers have become with shopping online even in this pandemic hit year," RedSeer
