## **RATIONALE & CONCLUSION**

In the circumstances, having regard to all relevant factors and on the basis of information and explanations given to us, we understand that upon the scheme being effective, all the shareholders of Demerged Company would also become the shareholders of Resulting Company and with the entire outstanding issued and paid-up share capital of Resulting Company ('Pre-Demerger Equity Share Capital') getting cancelled by way of a capital reduction as part of the same scheme, their shareholding in Resulting Company would mirror their existing shareholding in Demerged Company prior to the demerger. Taking into account the above facts and circumstance, any share entitlement ratio can be considered appropriate and fair for the Proposed Demerger as the proportionate equity shareholding of any shareholder pre-demerger and post-demerger would remain same and not vary, and that the beneficial economic interest of Demerged Company shareholders in Resulting Company will remain same as at the time of demerger (pre-demerger) and hence would not have any impact on the economic interest of the shareholders of the Demerged Company. The share entitlement ratio would not have any impact on the ultimate value of the shareholders of Demerged Company and the Proposed Demerger will be value-neutral to the Demerged Company's shareholders. We are of the opinion on the date hereof, that the Share Entitlement Ratio for the demerger of demerged undertaking of ETVL into the Resulting Company as stated above and recommended by the Registered Valuer is fair.

Further, in the circumstances, having regard to all relevant factors and on the basis of information and explanations given to us, we are of the opinion on the date hereof, that the Share Exchange ratio for Amalgamation of ETVL (with the "Residual Business" as defined in the Proposed Scheme) with and into the Transferee Company as stated above and recommended by the Registered Valuer is fair.

Yours faithfully,
